# National State-Based Tobacco Control Program Logic Model

National State-Based Tobacco Control Programs Logic Model			
Inputs:	Outcomes and activities, surveillance and epid...	Outcomes (Years 1 – 2)	Outcomes (Year 5)
<p><b>Evidence-Based Interventions</b></p> <p><b>State</b></p> <ul style="list-style-type: none"> <li>- Engage community-based organizations and private partnerships address tobacco-related disparities and health disparities</li> <li>- Coordinate and support community-based and decision-maker knowledge and decision-maker awareness of tobacco use, exposure to SHS, and tobacco-related disparities</li> <li>- Inform and support community-based and decision-maker awareness of tobacco control interventions, strategies and social norm change</li> <li>- Implement and support community-based implementation and enforcement of tobacco control interventions and strategies to support quit exposure to SHS, and decrease access and availability of tobacco products</li> </ul> <p><b>Mass Media</b></p> <ul style="list-style-type: none"> <li>- Plan and implement mass media campaigns</li> <li>- Support media engagement efforts</li> <li>- Expand, leverage and localize CDC media campaigns, <i>Surgeon General Reports</i>, and other science/evidence-based publications</li> </ul> <p><b>Cessation Interventions</b></p> <ul style="list-style-type: none"> <li>- Promote health systems change</li> <li>- Educate decision makers about the benefits of comprehensive insurance coverage and evidence-based cessation treatments</li> <li>- Maintain a state quitline/support state quitline capacity</li> </ul> <p><b>Surveillance and Evaluation</b></p> <ul style="list-style-type: none"> <li>- Develop an evaluation plan</li> <li>- Collect, analyze and disseminate state and community-specific data</li> <li>- Use data to identify disparate populations and inform public health action</li> <li>- Monitor pro-tobacco influences and inform and educate leaders, decision makers and the public</li> <li>- Develop/submit success stories and evaluation reports</li> </ul> <p><b>Infrastructure, Administration and Management</b></p> <ul style="list-style-type: none"> <li>- Develop and maintain infrastructure aligned with the five core components of the Component Model of Infrastructure (networked partnerships, multilevel leadership, engaged data, managed resources, responsive planning)</li> <li>- Provide ongoing training and technical assistance</li> <li>- Award and monitor subrecipient contracts and grants</li> </ul>	<p>Outcomes and activities, surveillance and epid...</p>	<p>Outcomes (Years 1 – 2)</p> <ul style="list-style-type: none"> <li>Increased health communication intervention messages to reach populations disproportionately affected by tobacco use, exposure to SHS, and tobacco-related disparities</li> <li>Increased health care system changes to promote support cessation</li> <li>Increased public awareness/support/awareness actions to increase access to and utilization of evidence-based cessation treatments</li> <li>Increased capacity to collect, analyze, and disseminate data related to tobacco-related disparities and health equity</li> <li>Increased or maintained state health department infrastructure and capacity to support a state-based tobacco control program</li> </ul>	<p>Outcomes (Year 5)</p> <ul style="list-style-type: none"> <li>Initiation of tobacco use and young adult exposure to tobacco</li> <li>Exposure to tobacco</li> <li>Tobacco use</li> <li>Tobacco-</li> </ul>

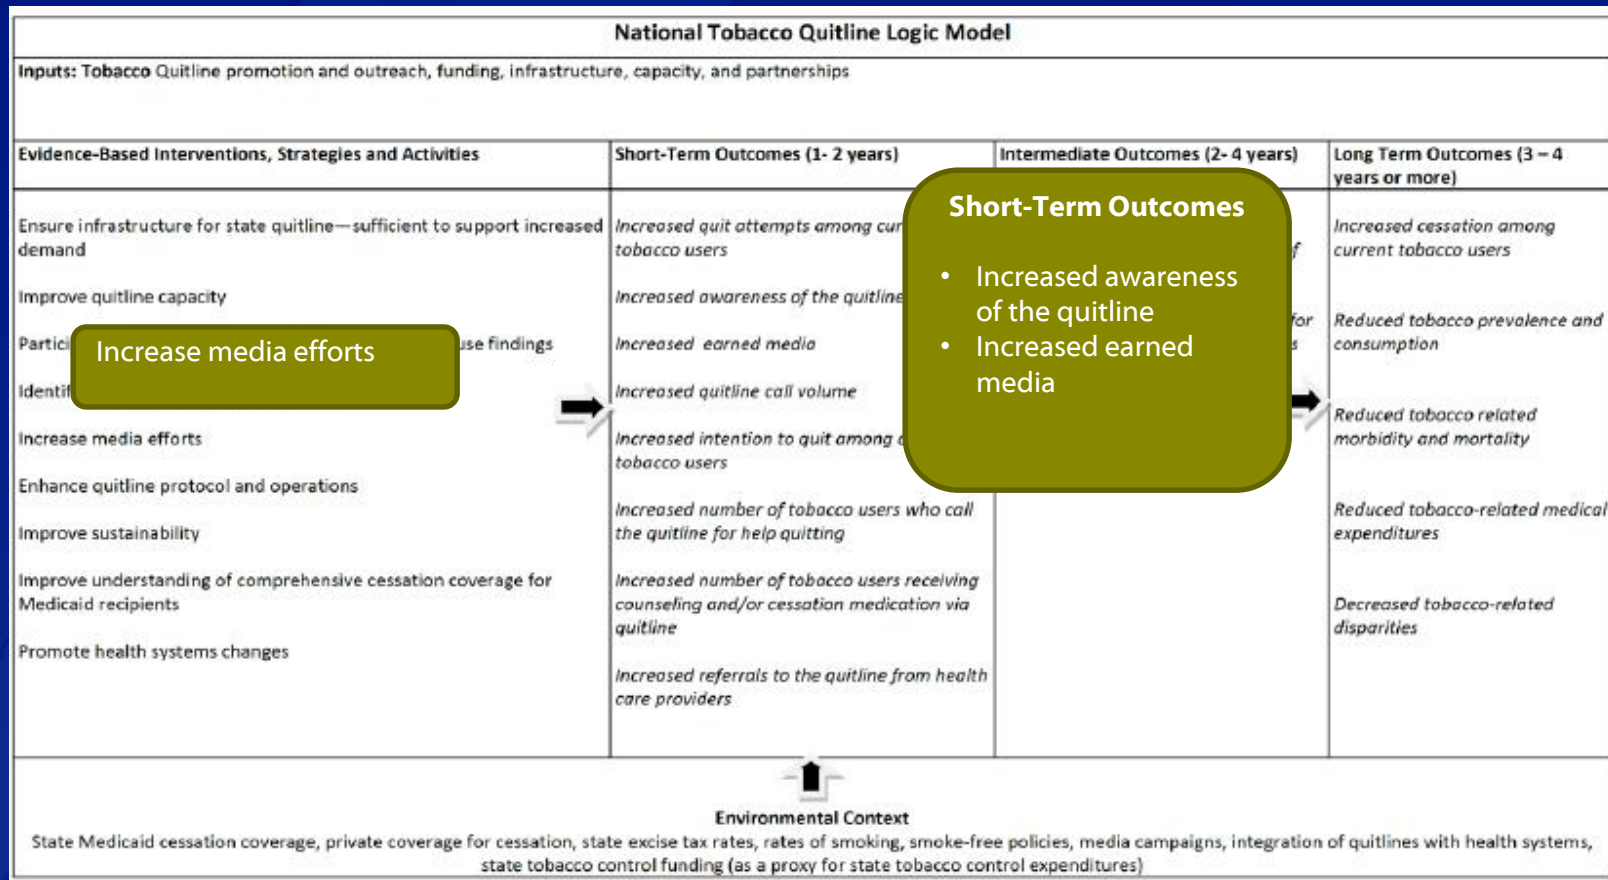

## Mass Reach Health Communication Interventions

- Plan, implement and evaluate health and counter-marketing campaigns
- Support media engagement efforts
- Expand, leverage and localize CDC media campaigns, *Surgeon General Reports*, and other science/evidence-based publications

## Short-term Outcomes

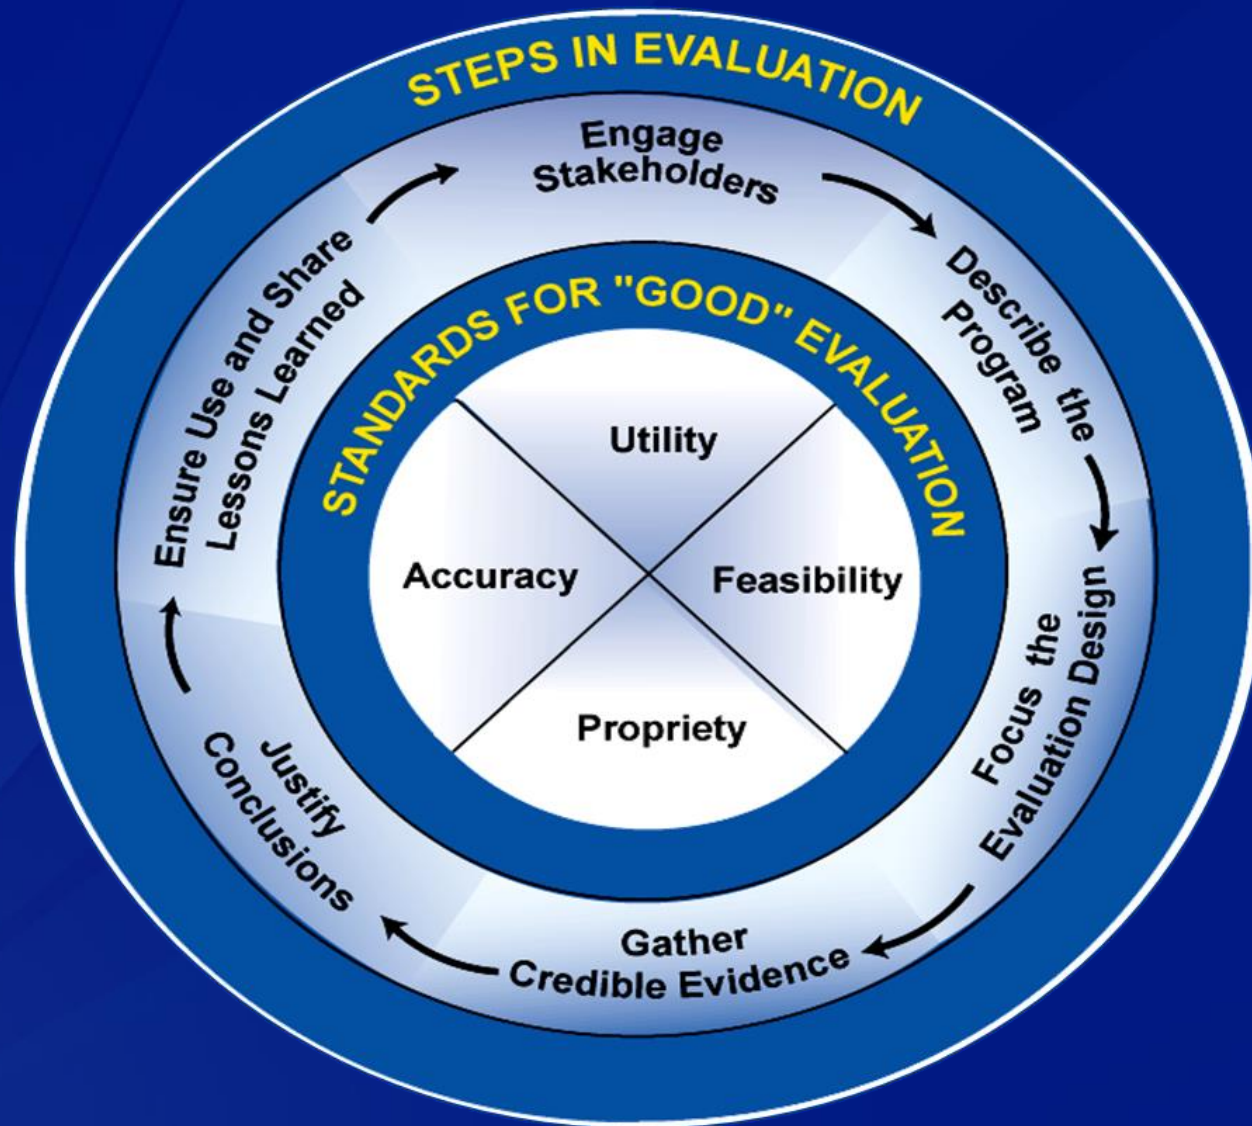

- Increased public and decision-maker knowledge about the dangers of tobacco use, exposure to SHS, and tobacco-related disparities
- Increased public and decision-maker awareness of effective tobacco control interventions, strategies and social norm change
- Increased health communication interventions and messages to reach populations disproportionately affected by tobacco use, exposure to SHS, and tobacco-related disparities
